As a result, money is being spent more wisely while adhering to compliance rules, thereby reducing non-compliant activities that can impact 5% - 10% of total spend.

What We Do

Venra helps businesses integrate compliance within their business operations. Our solutions gather data and comprehensively analyze all transactions to identify behaviors that are indicative of errors, potential fraud, waste or misuse. Action can now be taken on these findings in a manner that allows for policies to be enforced and employees to be influenced for the good of the company.
